VENKATA SUBBARAO VENTRAPRAGADA

venkatasubbarao1305@gmail.com | +91 9381101735 | LinkedIn | GitHub

Professional Summary

Motivated Computer Science Engineering graduate with hands-on experience in full-stack web development and AI-based applications using Python, Django, MySQL, HTML, CSS, and JavaScript. Strong understanding of database management and version control using Git. Passionate about developing innovative solutions and seeking an opportunity to leverage technical expertise and grow as a Software Developer.

Projects

DeepFake Detection System | Python, Django, PyTorch, OpenCV, ResNet18, MySQL code

- Trained a ResNet18-based model on 1,100+ facial images and integrated it into a Django web application for DeepFake detection.
- Developed an end-to-end detection pipeline using OpenCV for face extraction, PyTorch for model inference, and MySQL to store prediction history.
- Designed a responsive Bootstrap 5 interface with drag-and-drop uploads, confidence score visualization, and an admin dashboard for managing detection records.

Student Information Management System | HTML, CSS, Python, MySQL code

- Developed a full-stack Student Information Management System with 5+ modules for student records, attendance, course registration, marks, and certificate management.
- Built responsive interfaces using HTML5, CSS3, and JavaScript with real-time form validation for improved user experience.
- Implemented secure database connectivity and CRUD functionalities, ensuring accurate data processing, reduced manual effort, and improved administrative efficiency.

Currency Converter Web Application | Django, Python, HTML, CSS, REST API code

- Built a Django backend that accepts user input and returns converted currency values using real-time exchange rates.
- Integrated an external currency exchange REST API and processed JSON data to dynamically update results on the webpage.
- Designed a responsive HTML/CSS interface and deployed the application on Render cloud platform.

Education

Amrita Sai Institute of Science and Technology, AP — B.Tech, CSE — CGPA: 8.18 | 2022 – 2026

Narayana Junior College , AP — MPC in Intermediate — 2020 – 2022

SKZP High School, AP — SSC — 2019 – 2020

Key Skills

Programming Languages : Python, SQL, JavaScript

Frameworks & Libraries : Django, Flask

Tools: Git, GitHub, VS Code

Front-end development: HTML5, CSS3, JavaScript

Databases: MySQL

Soft Skills: Effective Communication, Teamwork, Time Management, Critical Thinking

Achievements

- Developed three full-stack web applications and one AI-powered DeepFake Detection System using over 1,100 training images.
- Published 8+ public repositories demonstrating Python, Django, Flask, MySQL, JavaScript, and AI development.
- Developed database-driven applications with secure CRUD functionality using MySQL.

Certifications

- **GeeksforGeeks:** Python Programming Certificate
- **TCS Certified:** TCS iON Career Edge – Young Professional
